

BERLIN S P

Mechanical Engineering Student

Phone :7639144640 | e-mail : berlinthorsp@gmail.com | linkedin : [linkedin.com/in/berlin-sp](https://www.linkedin.com/in/berlin-sp)

Location : Arumanai, Kanyakumari.

SUMMARY

Mechanical Engineering graduate with strong knowledge in design, manufacturing, and maintenance. Skilled in CAD tools, problem-solving, and analytical thinking. Eager to apply technical knowledge and contribute to organizational growth while continuously learning and improving engineering skills.

TECHNICAL SKILLS

- Auto-CAD (2D drafting,layout)
- Solid Works (3D modeling,assemblies)
- Fusion 360

SOFT SKILLS

- Time management
- Team collaboration
- Communication
- Adaptability

EDUCATION

Bachelor of Engineering -Mechanical Engineering , St.Xavier's Catholic College Chunkankadai. CGPA - 7.65.	2022 - 2026
HSC , P.P.M.Higher Secondary School, Anducode. Percentage - 61.67% .	2019-2020
SSLC , P.P.M.Higher Secondary School, Anducode. Percentage - 82.44%.	2017-2018

PROJECT

1. Design and Development of Automated Skip Hoist Conveyor for Powder Transfer

Technologies: SolidWorks, Mechanical Design, Material Handling Systems, Fabrication, Winch Mechanism

- Designed an inclined skip hoist conveyor system for powder transfer in automated packing machines.
- Created 3D CAD models of skip bucket, guide rails, and support structure using SolidWorks.
- Performed basic design calculations for payload handling, lifting mechanism, and structural components.
- Proposed an automated material handling solution to reduce manual powder loading and improve workplace ergonomics.
- Conducted system design analysis for a 10 kg payload and 6.5 m lifting height.

2. AA6061 Hybrid Metal Matrix Composite Project — Fabricated and characterized SiC/TiC reinforced AA6061 composites using stir casting; analyzed mechanical and tribological properties through SEM, hardness, tensile, and wear testing.

CERTIFICATES

- Autodesk Certified AutoCad
- Udemy Certification - Solid Works
- Autodesk Certified Fusion 360
